

To Whom It My Concern,

My name is Mitch Worthy. I serve as the State Coordinator for the Christian Motorcyclists Association in Mississippi. Emily Worthy has created several pieces of content for us to use inside our organization that we were very pleased with. These mostly were videos we used to promote or celebrate events and accomplishments, using photos, short videos, and detailed texts that we provided and acquired from other members for use. These were set to music and presented at our statewide functions with high praise and good feedback. Emily did an excellent job creating these for us while taking constructive criticism well and also using her creative freedom to develop a great final product.
